PRCO304:   Video

Please upload a short (5 minute) video of the use of your system (by the deadline given on the SPMS) in order to allow your markers to have a brief preview ahead of the formal demonstration.   A set of narrated screen shots would be fine.

It is up to you which technologies you use, but suggestions are QuickTime and MS Expression.   Please try to use mp4[1], but if in doubt please contact your markers.
